Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status							
1)⊠ —	Responsive to communication(s) filed on <u>04 October 2001</u> .						
2a)□	,—	is action is non-					
3)□	3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims							
4)⊠ Claim(s) 1 and 19-23 is/are pending in the application.							
	4a) Of the above claim(s) is/are withdrawn from consideration.						
5) Claim(s) is/are allowed.							
6)⊠	6)⊠ Claim(s) <u>1 and 19-23</u> is/are rejected.						
7)	Claim(s) is/are objected to.						
8)□	Claim(s) are subject to restriction and/or	r election requir	ement.				
Application	on Papers						
	The specification is objected to by the Examiner						
10)⊠ 7	10) \boxtimes The drawing(s) filed on <u>03 October 2001</u> is/are: a) \square accepted or b) \boxtimes objected to by the Examiner.						
	Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).						
11)[1	The proposed drawing correction filed on	• • • • •	,	ved by the Examiner.			
If approved, corrected drawings are required in reply to this Office action.							
12) The oath or declaration is objected to by the Examiner.							
Priority under 35 U.S.C. §§ 119 and 120							
	Acknowledgment is made of a claim for foreign	priority under 3	35 U.S.C. § 119(a))-(d) or (f).			
a)L	a) All b) Some * c) None of:						
	1. ☐ Certified copies of the priority documents have been received.						
	2. Certified copies of the priority documents have been received in Application No						
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 							
14)⊠ A	14)⊠ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).						
a) ☐ The translation of the foreign language provisional application has been received. 15)☑ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: all reference numerals cited in the specification. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 19-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 19 recites "across the length of the patient's body I being treated." It is unclear what is meant by this phrase. Claim 19 also recites "the length of the patient's body", which positively claims a portion of the body. This is improper and a correction is suggested. Claims 20-23 depend upon claim 19 and inherit all problems associated with the parent claim.

Claim 20 recites "the patient's body lumen comprises an artery", which claims a portion of the body. This is improper and a correction is suggested.

Referring to claim 21, it unclear whether the graft comprises 3 graft members in addition to the plurality of graft member, or if the 3 graft members are the plurality of graft members. It the latter is correct, it is suggested to change "the graft comprises" to recite --the plurality of graft members--.

Referring to claim 23, it is unclear what is meant by "transverse dimension" and "outer transverse dimension", since no reference frame has been claimed. It is suggested to clarify transverse to what

Page 3

Application/Control Number: 09/970,576

Art Unit: 3738

reference frame. Also, it is unclear whether "dimension" is referring to length, diameter, circumference, etc.

4. Claim 22 recites the limitation "the other thin wall graft members" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

- 6. Claims 1 and 19-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Whalen (USPN 5,354,329). Whalen discloses a graft (col.1, lines 10-15) comprising a plurality of graft members configured to be layered (figs. 1, 2). Whalen discloses at least 3 graft members (12, 14, 16), wherein the inner layer has the greatest axial length (fig.1).
- 7. Claims 1 and 19-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Buirge (USPN 5,735,897). Buirge discloses a graft comprising a plurality of graft members configured to be layered (figs. 1-3). Buirge discloses at least 3 graft members (12, 14, 16).

Art Unit: 3738

8. Claims 1 and 19-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Silverman et al. (USPN 5,931,865). Silverman discloses a graft (10, 50) comprising a plurality of graft members configured to be layered. Silverman discloses at least 3 graft members (fig. 12, 13), wherein the inner layer has the greatest axial length (fig.3).

Claim Rejections - 35 USC § 103

- 9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 10. Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Whalen (USPN 5,354,329). Whalen discloses a graft as explained above, however does not disclose the precise dimensions for "transverse dimension" as claimed. It would have been on obvious matter of design choice to size the transverse dimension from about 3mm to 40mm, since such a modification would have involved a mere change in the size of a component. A change in size is generally recognized as being within the level of ordinary skill in the art. *In re Rose*, 105 USPO 237 (CCPA 1955).

Art Unit: 3738

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheryl L. Miller whose telephone number is (703) 305-2812. The examiner can normally be reached on Monday through Friday from 7:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott, can be reached on (703) 308-2111. The fax phone number for the organization where this application or proceeding is assigned is (703) 305-3590.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0858.
